Northpeak Apparel – Sustainability Report 2025

FICTIONAL DEMO REPORT – company and all figures are invented for testing.

Our approach

Sustainability is at the heart of everything we do at Northpeak. Our new Earth collection is eco-friendly and kind to the planet. We offer sustainable products for a greener future. All our products have zero environmental impact thanks to our innovative design. We are committed to protecting the environment for future generations.

Indicator	2024	2025
Stores	310	342
Revenue (EUR m)	1,150	1,260

Climate

Our hoodies are carbon neutral because we offset all production emissions through certified forestry projects. Our online shop is climate neutral thanks to carbon credits purchased from a partner in Brazil. We aim to become net zero by 2040. We will make our packaging more sustainable in the coming years. Climate change may increase the frequency of extreme weather events in our sourcing regions. In 2025, 22% of the electricity used in our offices came from renewable sources.

Materials

Our flagship store in Berlin is fully sustainable. We believe that responsibly made fashion is the future of our industry. We use recycled polyester in selected products.
